SUMMARY OF CONTENTS OF DECREE LAW N. 286-2009 ON THE ESTABLISHMENT OF A COUNTRY VISION AND ADOPTION OF A NATION PLAN TO HONDURAS

By 2022, it is expected that the Ministry of Foreign Affairs of the Republic of Honduras has fully completed the restructuring and repositioning of the diplomatic delegations abroad in accordance to changes in economic and commercial geography that is experiencing the world and the need for these resources to work more actively for the promotion and knowledge of the qualities of Honduras in the rest of the world.

NCGE
PURPOSE OF THE LAW
Create and structure the conditions for the effective development of the country's vision to 2038 and National Plan to 2022.

BASIC DEFINITIONS
Country Vision: Image objective of social, political and economic characteristics that the country must achieve, through the implementation of successive national plans and government plans consistent with each other, describing the social aspirations in each area and establish for each 28-year cycle.
Nation Plan: Document that sets out the strategic priorities that address the challenges faced by the country around which should run the public and private action that is directed to meeting the intermediate objectives of the vision of the country. The national plan is formulated for a period of 12 years.
Government Plan: Set of policies, programs and projects that each government administration, regardless of political party to submit it and run. The government plan will be valid for 4 years.
The Country Vision, the Nation Plan and the Government Plan are the three complementary elements of development planning process.
Strategic Objective: The development process should aim at reducing the vulnerabilities of the country, its dependence on external financing and enhancing the productive capacities of the various operators in our society.

All ministries, institutions and state agencies are indebted to adapt their systems work, programs and projects implemented by regional schemes, to the provisions of this law.

THE ROLE OF THE MINISTRY OF FOREIGN AFFAIRS IN THE NATION PLAN

DESCRIPTION OF INSTITUTIONAL GOALS:

- Normalize and consolidate relations between Honduras and the International Community: For this purpose it is essential to redesign the Foreign Service not only from the point of view of the kind of diplomatic official but also a relocation of diplomatic missions, depending on the commercial, financial and investment interests of the country.

- Integral Development of capacity Building for Investment Promotion, Cooperation and Trade: Modernizing the Legal and Regulatory Framework for Investment in Honduras (now the project of a new law is the National Congress for its endorsement), Institutional Development to attract and sustain investments in Honduras (Develop and Adopt a National Policy and Strategy, a Single Window for Foreign Direct Investment), Business Intelligence as the basis for the competitive development of Honduras (Creation of the Center for Economic and Business Research and the Directorate General of Investment Promotion), National Policy on External Cooperation.

- A Modern Ministry of Foreign Affairs, Efficient and Competitive: Physical Spaces, Technology and Telecommunications, Diplomatic Academy (Professional Certification Program in Foreign Policy, Professional Certification Program on Investment Promotion and External Cooperation, Professional Certification Program Consular Services), an effective Communication.

SOURCE: Extracted from the presentation made by Mr. Alden Rivera, Vice Minister of Foreign Affairs, as part of the training week for consular staff, May 2010.
Functions of the Ministry of Foreign Affairs within the framework of the National Competitiveness Council and Development: To make recommendations to the Ministry of Industry and Trade, about regions around the world with growth potential through trade and investment.

The Ministry of Foreign Affairs is also a member of the Security Cabinet, National Defense and Governance, together with the Ministry of Government and the Ministry of Defense and Security.

"Efforts are needed to provide a favorable environment for investors in the development of productive projects in those economic activities in which Honduras can develop its competitive advantages before countries in Central America and others out of the region, taking advantage of the growth of new markets."

Honduras permanently needs to have an instance of thought that, on a continuous action base, with access to comprehensive and sufficient information can detect new emerging opportunities for the country in areas such as: production, services, new markets, new business alliances, existing markets and new ways of using resources that allows the formulation of policies on: investments, education curriculum development, distribution networks, marketing systems. The key: to guide the country towards a successful insertion in the economy world.

One of the strategies to implement consist in the implementation of the One Stop Window (VUI) for Foreign Direct Investment (FDI) to centralize in one place all information, rules and regulations connected with the establishment and expansion of FDI. This new concept will allows the simplification of procedures, reducing transaction costs, time saving, provision and access to permanent services 24x7 (24 hours, 7 days of the week).

It is important to take into consideration the Business Intelligence Cycle, which is developed as follows:

- International Legal Framework for Investment and Trade Promotion.
- Country Profiles and Import- Export Records
- Database of national and international companies with interests in the region
- Project Development and Investment Opportunities in Honduras
- Managing Foreign Investment Services at regional and global level

In addition, Honduras is preparing to carry out the mega event "Honduras is Open for Business, A time of Change, an Opportunity Horizon", between 4 and 5 of November 2010, in San Pedro Sula Honduras.

In order to positioning Honduras internationally as an attractive destination for tourism and investment, it needs to develop a specialized campaign to promote internationally, based on the design of a country image aimed to exploit its natural riches, political stability, investment opportunities, cultural /artistic events and quality of its human resources.

By 2022, it is expected that the Ministry of Foreign Affairs of the Republic of Honduras has fully completed the restructuring and repositioning of the diplomatic delegations abroad in accordance to changes in economic and commercial geography that is experiencing the world and the need for these resources to work more actively for the promotion and knowledge of the qualities of Honduras in the rest of the world.
